SIDDHARTH KAUSHIK

Full-Stack Developer · Oracle Cloud Certified · B.Tech CSE 2026 · Reliance Foundation Scolar · NPTEL Certified · AI Developer

PROFILE

Final-year B.Tech CSE student with hands-on experience in AI-powered app development, computer vision, full-stack engineering, and data analysis. Skilled in Python, Java, .NET concepts, and cloud-native architectures. Holds Oracle Cloud certifications , NPTEL Certification. Open to roles in Data Engineering, DevOps, Business Analysis, Integration Engineering, and Software Development.

WORK EXPERIENCE

Software Engineering Intern | **509 Army Base Workshop, Indian Army** *Jun – Jul 2025*

- Built an AI-powered File Content Tracker using Next.js + Electron for intelligent bulk document management — applying data engineering and integration engineering principles to automate indexing across large defence databases.
- Integrated Ollama (local LLM) for on-device AI processing; delivered a privacy-first, fully offline intelligent search system following DevOps practices (version control, iterative deployment, cross-platform builds).
- Acted as a business analyst — gathered requirements from defence stakeholders, translated them into technical specs, and iterated rapidly to meet operational needs.

PROJECTS

Smart Parking Detection System — *Python · OpenCV · Computer Vision · Data Analysis*

- Designed a real-time computer vision pipeline to detect vacant/occupied parking slots via live camera feeds using adaptive thresholding, contour analysis, and occupancy overlays.
- Performed data analysis on slot usage patterns; system architected for multi-camera smart city and IoT integration.

AI-Powered File Content Tracker — *Next.js · Electron · TypeScript · Ollama · Node.js*

- Cross-platform desktop app with local AI model for semantic search, auto-tagging, and content summaries — integrating multiple system components via clean REST-style internal APIs (integration engineering).
- Modular TSX architecture with full-stack implementation: UI (React/Next.js), backend logic (Node.js/Express), local AI layer (Ollama).

EDUCATION

B.Tech — Computer Science & Engineering | **Eshan College of Engineering, Mathura** *2022 – 2026*

YGPA: 7.1 / 10 | AKTU University

Class XII — Science (PCM) | **University Model School, Agra** *2021 – 2022*

67% | CBSE Board

CERTIFICATIONS

Oracle Cloud Infrastructure (OCI) 2025

✓ AI Foundations Associate · Foundations Associate · Generative AI Professional · Multicloud Architect Professional

Technical & Development

✓ Full Stack Dev with Python — APTRON (84 hrs) · Software Engineering Simulation — Forage (Kafka, REST APIs)

✓ Data Visualisation — Tata/Forage · MongoDB with Python — GFG · Python Advanced — Udemy · Excel — Udemy · Java/Python — Udemy

✓ McKinsey Forward Program

NPTEL Elite

✓ Speaking Effectively — IIT Kharagpur (Elite) · Soft Skills & Personality — IIT Kanpur (Elite) · Patent Law For Engineers— IIT Madras · Emotional Intelligence— IIT Kharagpur · Introduction to Internet of Things — IIT Kharagpur (Elite)

TECH SKILLS

Languages

Python
Java
JS /TSX
SQL
C / C++
.NET (C#)

Frameworks & Libraries

React.js · Next.js · Express.js
Pandas · NumPy · Matplotlib
OpenCV · Scikit-learn

Tools & Cloud

Git · GitHub · Docker · Linux · Shell Scripts
Oracle Cloud (OCI)
MongoDB · MySQL · PostgreSQL · ElasticSearch
Kafka · REST APIs · Postman
Electron.js · Ollama (AI)

COMPETENCIES

Problem Solving & Analytics
Agile / DevOps Mindset
Requirement Gathering (BA)
System Integration
Team Collaboration
Multitasking & Fast-paced Delivery
English Communication (NPTEL Elite)
